Appliances

Refrigerators, freezers, air conditioners and dehumidifiers contain CFC's (freon) that must be reclaimed by a licensed contractor before recycling or disposal. Most appliance dealers will take your old appliance away when they deliver your new one. Otherwise, call one of the locations listed here for information on how to recycle your old appliance. Please call for hours, fees, and general information.

Glass

West Central SWD

Rural Recycling Centers

[Go to website home page, click recycling tab](#)

Clear, green and brown container glass is accepted. Window glass, light bulbs, and drinking glasses are NOT recyclable because they do not melt at the same temperature as container glass. Therefore any other glass besides "container" glass is considered "contaminant" and should not be placed in the recycling at the rural sites.

Grass Clippings

West Central SWD Yard Waste Sites

Greencastle: 2363 S. Co. Rd. 250 West, located on the road to the County Highway Department, just past the police firing range on

the left. Open April through end of October call 765-653-6699

West Central Solid Waste District hosts one yard waste recycling center in Greencastle that is designed to accommodate some types of yard waste. Backyard composting should be the first measure taken for such debris. However, some yards are not very accommodating and so yard waste sites are available. Grass clipping should be left on the ground by means of a mulching mower whenever possible. Valuable nutrients are taken from the soil when grass clipping are bagged up. The same can be said of leaves. Alas, many people are not agreeable to this type of lawn management. However you care for your lawn, please take care not to put yard waste into the "regular" trash, landfills are filling so quickly they cannot accept yard "waste" .

J

Junk Mail

Americans receive almost 2 million tons of junk mail each year; about half is never even read. To cut back on this waste of paper and landfill space, you can reduce the amount of junk mail you receive.

Step 1

When donating money, entering a contest, sending in a warranty card or purchasing something through the mail write "no mailing lists" on your check or money order.

Step 2

Call the toll-free numbers on unwanted catalogs and ask to be removed from their mailing lists. Ask to be sent fewer catalogs of the ones you want.

Step 3

Send a postcard to:
Mail Preference Service
Direct Marketing Association

"When you change the way you look at things, the things you look at change."

— Wayne Dyer

We do not inherit the earth from our ancestors, we borrow it from our children.
~Native American Proverb~

Paint

You only have to worry about recycling oil-based paint. Commonly used latex paint can be dried out

1. remove lid from paint container.

2. Add sand or clay based kitty litter, sand or shredded newspaper until there is equal parts of absorbent and paint. Stir until well mixed

3. Place the uncovered container in a well ventilated area until the mixture has hardened

4. Dispose of the paint container with your regular trash-making sure to leave the lid off so the trash hauler can see the paint is in a solid form. If they are unsure, they may not pick it up.

Oil based paints can be recycled at the following locations:

Accepts #1 through #7 food and beverage containers only. Soap containers triple rinsed.

No motor oil or auto liquids. The numbers are found inside the chasing arrows on the bottom of the container. Plastic shopping bags should be reused and **NOT** put in the recycling bins. If the plastic bags cannot be reused (or you have simply accumulated too many) they should be recycled separate from other plastics.
