Appliances

Refrigerators, freezers, air conditioners and dehumidifiers contain CFC's (freon) that must be reclaimed by a licensed contractor before recycling or disposal. Most appliance dealers will take your old appliance away when they deliver your new one. Otherwise, call one of the locations listed here for information on how to recycle your old appliance. **Call for hours, fees, and general information.**

G

Glass

West Central SWD Rural Recycling Centers

Go to website home page, click "Programs" tab, select "Rural Recycling Centers"

Clear, green and brown container glass is accepted. Window glass, light bulbs, and drinking glasses are NOT recyclable because they do not melt at the same

temperature as container glass. Therefore any other glass besides "container" glass is considered "contaminant" and should not be placed in the recycling at the rural sites.

Grass/Leaves/Twigs/Branches

West Central SWD Yard Waste Sites

Greencastle : 2363 S. Co. Rd. 250 West, located on the road to the County Highway Department, just past the police firing range on the left. Open April through end of October. Call for hours.

765-653-6699 (Residents Only)

West Central Solid Waste District hosts a yard waste recycling center in Greencastle that is designed to accommodate certain types of vegetative material. Backyard composting should be the first measure taken for such debris. Grass clipping should be left on the ground by means of a mulching mower whenever possible. Valuable nutrients are taken from the soil when grass clipping are bagged up. The same can be said of leaves. However you care for your lawn, please take care not to put yard waste into the "regular" trash as many landfills do not accept yard waste. Only compostable materials are accepted which do not include sod, soil, processed or treated lumber, large trees, or stumps. Site space is limited so no businesses, contractors, or landscapers please.

J

Junk Mail

Americans receive almost 2 million tons of junk mail each year; about half is never even read. To cut back on this waste of paper and landfill space, you can reduce the amount of junk mail you receive.

Step 1

When donating money, entering a contest, sending in a warranty card or purchasing something through the mail write "no mailing lists" on your check or money order.

Step 2

Call the toll-free numbers on unwanted catalogs and ask to be removed from their mailing lists. Ask to be sent fewer catalogs of the ones you want.

Step 3

Send a postcard to:
Mail Preference Service
Direct Marketing Association
P.O. Box 9008
Farmingdale, NY 11735-9008

L

Leaves

West Central SWD Yard Waste Sites

Greencastle: 2363 S. Co. Rd. 250 West, located on the road to the County Highway Department, just past the police firing range on the left. Open April through end of October. Call for hours.

765-653-6699 (Residents Only)

Backyard composting should be the first measure taken for such debris. However, some yards are not very accommodating and so yard waste sites are available. Leaves and grass clippings should be left on the ground by means of a mulching mower whenever possible. Valuable nutrients are taken from the soil when leaves and grass clipping are bagged up. Many people are not agreeable to this type of lawn management. However you care for your lawn, please take care not to put yard waste into the "regular" trash, landfills are filling so quickly they cannot accept yard "waste".
